ZILLNER ELECTRONICS

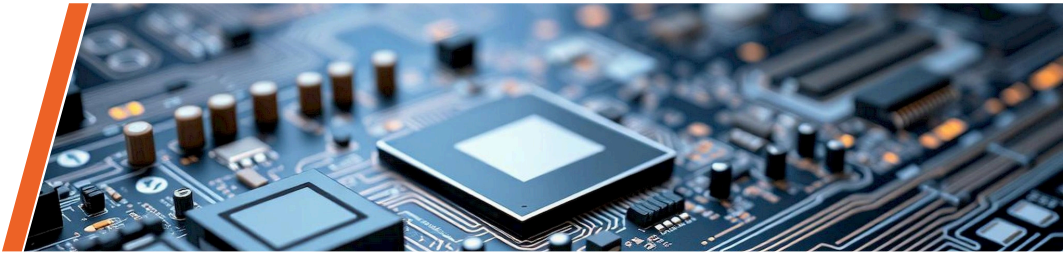
AUTHORISED DISTRIBUTOR · ELECTRONICS TRADITION SINCE 1949

Your partner in industrial electronics

What sets us apart

Experience you can count on.

Zillner Electronics combines three generations of family know-how in electronics with the requirements of modern industrial applications. As an authorised distributor, we offer real technical expertise, dependable manufacturer partnerships and personal advice on equal terms.



01

High current & power electronics

We focus on power electronics, along with electronic and electro-mechanical components for demanding industrial applications.

02

Quality & Reliability

Authorised supply channels, documented product origin and full batch traceability give you peace of mind.

03

A genuine partnership

A dedicated contact, quick decisions and advice tailored to you. We take the time to understand your needs and find the right solution together.

APPLICATIONS

- Automotive
- Building & Energy Technology
- Data Centres & AI
- Energy & E-Mobility
- Industrial Automation
- Mechanical & Plant Engineering
- Medical Technology
- Test & Measurement

From first design to full production

Technical expertise, authorised sourcing
and dependable supply for your applications.

01 **Authorised Distribution**
Direct links to manufacturers, traceable origin and reliable product data, so you can source components with confidence.

02 **Design-In & Technical Support**
We help you choose the right components, answer technical questions and arrange samples, working closely with our manufacturer partners.

03 **Validation & Testing**
Support with component qualification, technical testing and documentation.

04 **Supply Chain Management**
Reliable sourcing, deliveries matched to your demand and supply plans built around your production.

OUR PRODUCT GROUPS

AI Accelerators & Embedded Systems
AI accelerators · Edge AI · Embedded computing

Capacitors
MLCCs · Film capacitors · Electrolytic capacitors

Circuit Protection
Fuses · TVS diodes · Varistors

Connectors
Circular connectors · PCB connectors · Power connectors

Current Sensors
Current sensors · Hall sensors · Residual current sensors

Power Electronics & Magnetics
MOSFETs · IGBTs · SiC MOSFETs · Inductors

Relays & Switches
Industrial & power relays · PCB relays · Switches

Terminal Blocks & Connectors
PCB terminal blocks · DIN rail terminals · Wire terminals

ZILLNER
